GERMANY -- Latest reports Saturday from all news services confirm earlier indications that Thursday's attempt to assassinate Hitler inaugurated a military-political crisis in Germany.

Switzerland reports considerably increased German guards along the Swiss-German border.

Dr. Robert Ley, Nazi Labor Chief, broadcast Saturday from Berlin on the crisis saying "The fact that Hitler was saved does not mean the battle is won."

Persistent reports from all sources say German naval units have started to rebel and refuse to put to sea.

Berlin and the rest of Germany remain cut off in telephone communications from the rest of the world.

All news agencies report an underground German radio as announcing that a new government of army officers has been formed in Germany and that a call has already been addressed to the German people announcing the formation. Four German Generals -- Fritz Fromm, Brauchitsch, von Halder and von Bock -- all of whom have been dismissed from commands in the German Army, are reported as leading the new government. Earlier reports mentioned the men as a group "in hiding".

Colonel General Fritz von Stroom, Commander-in-Chief of the army reserve and a member of the armament council has been dismissed.

ITALY -- American troops of the Allied Fifth Army have driven to within six and one half kilometers of Pisa on the Italian west coast and have consolidated their positions on the south bank of the Arno River.

In central Italy British troops of the Allied Eighth Army, meanwhile, have made locale gains in the valley and in the hills north and northwest of Monte San Michele.

On the Adriatic coastal sector Polish troops of the Eighth Army have advanced from 3 to 5 kilometers and are now in contact with the enemy covering the road inland from Senigallia, north of Ancona.

JAPAN -- General Kuniaki Koiso, former Governor General of Korea, Saturday was named Premier of the new Japanese Cabinet to succeed Tojo. The complete Cabinet membership was also announced.

CHILE -- Marcial Mora Miranda, former Chilean Minister of Finance and Foreign Affairs, has been appointed Chile's Ambassador to the United States, pending ratification by the Chilean Senate.

PACIFIC -- U.S. Marines and Infantry Friday established two separate beachheads on Guam. The landings were on the western side of the Island to the north and south of Port Apra. Light casualties are reported. Saipan-based American bombers are hammering the enemy.

YUGOSLAVIA -- It was reported Friday that a session of the Yugoslavian Central National Committee, called by General Draja Mihailovitch, had opened Thursday in the Yugoslav mountains, and that the new political situation would be discussed.
